## EDUCATION

### R N S Institute of Technology

Bachelor of Engineering in Computer Science and Engineering

Aug 2021 – May 2024

CGPA - 7.20

## EXPERIENCE

### Software Developer

Aviationskybiz Private Limited / SKYBIZ GLOBAL

May 2025 – Present

Bangalore, Karnataka

Developed Company Management System using MERN stack:

- \* Enhanced attendance with manual punch-in/out limits and leave tracking (WFH/maternity)
- \* Implemented shift management and fixed timezone issues for accurate punch timings
- \* Improved both backend (Node/Express/MongoDB) and frontend (React/Tailwind CSS)
- \* Collaborated using Git/GitHub workflows and optimized system performance

### Python Developer

X-Ceincia Tech Ind Pvt Ltd

Aug 2024 – April 2025

Bangalore, Karnataka

- Built an online job portal with email notifications, job applications, and alerts. Fixed issues in Skills and Hiring Industry fields, improved employer dashboards, and enhanced admin management.
- Developed an RBAC system using Django and React with JWT authentication for Admins and Users.

### Intern

Varcon Technologies pvt ltd

Aug. 2023 – Sep. 2023

Bangalore, Karnataka

- Worked on a project titled Template for an E-Commerce Fashion Store Site.
- Designed functional web pages, used databases to collect, store, and sort data, by understanding the design briefs and client specifications

## PROJECTS

### Company Management System | MongoDB, Express.js, Node.js, Next.js

June 2025 – July 2025

- \* Implemented employee time tracking with punch in/out system and manual entry options
- \* Developed admin dashboard with announcement broadcasting and request management
- \* Automated leave/WFH approval workflows with notification system.
- \* Integrated payment request processing and salary management
- \* Added profile customization and daily work report submission features

### Job Portal | Python, Django, REST API, React.js, Tailwind CSS, MySQL

Dec 2024 – Feb 2025

- \* Built end-to-end recruitment platform with job search and application tracking.
- \* Implemented email notifications for registrations and application updates
- \* Enhanced employer dashboards with analytics and candidate management
- \* Fixed Skills/Hiring Industry field mappings to improve search accuracy
- \* Added profile customization and daily work report submission features

### Social Book | Python, Django, HTML, CSS, MySQL, REST API

Nov 2024 – Dec 2024

- \* Developed a social media platform using Django for the backend and React for the frontend, following the MVT architecture.
- \* Implemented user authentication, profile management, and content-sharing features.
- \* Designed an interactive UI for users to post updates, like, comment, and share content.
- \* Integrated role-based access control (RBAC) to manage user permissions and access levels.
- \* Added real-time notifications and messaging functionality for seamless user interaction.
