PROFILE SUMMARY

Passionate Software Developer with experience in building full-stack applications using Python, Django, and the MERN stack. Proficient in developing RESTful APIs and responsive UIs, with familiarity in Docker and Vercel. Focused on writing clean, efficient, and maintainable code.

EDUCATION

R N S Institute of Technology <i>Bachelor of Engineering in Computer Science and Engineering</i>	Aug 2021 – May 2024 CGPA: 7.20
M S Polytechnic <i>Diploma in Computer Science</i>	Aug 2018 – May 2021 percentage: 77

EXPERIENCE

Software Developer <i>Aviationskybiz Private Limited / Workbiz PVT LTD</i>	May 2025 – Present Bangalore, Karnataka
<ul style="list-style-type: none">Enhanced attendance tracking with manual punch limits and comprehensive leave management (WFH/Maternity/Paternity)Implemented overlapping validation to prevent conflicts between leaves, WFH requests, and time entriesDeveloped shift management with timezone corrections for accurate global team punch recordsAdded work report editing and admin commenting functionality for improved workflow managementImplemented intelligent leave calculation excluding non-working days and holidays from multi-day requestsCollaborated with team using Git/GitHub and optimized API performance for faster response times.	
Python Developer <i>X-Ceincia Tech Ind Pvt Ltd</i>	Aug 2024 – Apr 2025 Bangalore, Karnataka
<ul style="list-style-type: none">Worked on online Job Portal using Django REST API and React with features like email notifications, job applications, and alerts.Implemented Role-Based Access Control (RBAC) using JWT for Admin and User modules.Enhanced employer dashboards and admin management for better user experience.	

PROJECTS

Company Management System <i>MERN Stack</i>
<ul style="list-style-type: none">Built employee time tracking with punch-in/out and manual entry limitsDeveloped admin dashboards and automated leave/WFH approval workflowsIntegrated payment processing and daily work report modules
Delivery Management System <i>Go, PostgreSQL, Docker</i>
<ul style="list-style-type: none">Developed backend system managing delivery order lifecycle using goroutinesImplemented concurrency handling for real-time order state updatesBuilt secure authentication and containerized using Docker
Job Portal <i>Django, React, MySQL</i>
<ul style="list-style-type: none">Developed recruitment platform with job posting and application trackingImplemented user authentication and employer analytics dashboardEnhanced job filtering and email notification system
Social Media App <i>Python, Django, MySQL</i>
<ul style="list-style-type: none">Developed social platform with user profiles, posts, and commentsImplemented secure authentication and authorization systemDesigned responsive UI with dynamic content loading

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, TypeScript, Java, C, C++, Go
Frameworks: Django, Flask, Node.js, Express.js, REST API
Web Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, Bootstrap
Databases: MySQL, PostgreSQL, MongoDB, Redis
Developer Tools: Git, GitHub, VS Code, PyCharm, Postman, Docker, MySQL Workbench, MongoDB Compass
Cloud/Deployment: Vercel
